## DECLARATION of COMPLIANCE

Date: 10<sup>th</sup> October 2013

We hereby declare that:

All the "SANTOS" appliances are in compliance with general requirements of EC regulation No. 1935/2004 (general rules applicable to all materials and articles intended to come into contact with foodstuffs), as declared within the EC Declaration of conformity delivered with any Santos appliance.

For Plastic materials and articles intended to be in contact with foodstuff, Santos appliances comply with:

- Specific requirements of the "good manufacturing practice (EC) regulation No. 2023/2006 " and
- EC Regulation 10/2011 related to plastic materials and articles intended to be in contact with foodstuff.

We declare that any raw materials or additives used in the production of components intended to be in contact with foodstuff or the user of the machine does not contain these specific dangerous substances:

- Phthalates (DEHP, DINP, DIDB, DBP, BBP....)
- Polycyclic Aromatic Hydrocarbons (PAH)

These substances are not used as a raw material, nor are they added to the manufacturing process or the end product. So we have no reason to expect that they would be present. Or, in the contrary case, the level would be below the threshold levels in this legislation.

This declaration replaces all previous ones relating to this subject.

For SANTOS company,

VERBEKE Benoit
